SUMMARY

Computer Science graduate (GPA 3.61) with AWS Cloud Practitioner certification. Built and shipped a mobile app end-to-end as a team project — Flutter UI, Firebase backend, and in-app monetization — with a strong quality mindset from owning manual QA. Currently pursuing CompTIA Security+. Seeking entry-level Software Engineer roles.

PROJECTS

Hibernate — Children's Mobile App (Team Project) | Flutter, Dart, Firebase, RevenueCat, Jira

Jul 2023 – Dec 2025

- Built responsive Flutter UI (sign-up, explore, premium views) and integrated RevenueCat for in-app monetization
- Implemented secure user authentication and data sync with Firebase (Firestore), enforcing data privacy and access control
- Owned manual QA across multiple devices: designed test cases, tracked and triaged bugs in Jira, and verified edge cases before releases
- Collaborated in an Agile workflow with an engineer and UX designer using GitHub and Jira

Note: development completed; project paused before public launch

Pong Game (Human vs. AI) | Python, Pygame

Mar 2025 – Apr 2025

- Built an object-oriented Pong game with AI paddle logic, scene transitions, and logic testing for smooth gameplay; PEP-8 compliant

EXPERIENCE

Barista — Starbucks, Vienna, VA

Feb 2026 – Present

- Delivered high-quality customer service in a high-volume, fast-paced environment, ensuring strict adherence to operational standards and collaborating with team members to optimize workflow efficiency.

EDUCATION

B.S., Computer Science — California State University, Fullerton (GPA: 3.61)

A.A., Computer Science — Orange Coast College (GPA: 3.73)

CERTIFICATIONS

AWS Certified Cloud Practitioner Issued Oct 2025 – Expires Oct 2028
